Objective

Aspiring AI/ML and Data Science enthusiast with strong foundations in Python, Java, and SQL. Seeking an internship opportunity to apply problem-solving skills and contribute to real-world machine learning projects while gaining hands-on industry experience.

Professional Experience

- Pursuing my Bachelor's degree in Information Technology with a focus on software development and programming languages at A. C. Patil college of engineering
- Along with my main degree, I am also pursuing an Honours Degree in AI & ML
- Proficient in Java, Python and JavaScript with hands-on experience in developing small-scale projects during coursework
- Strong problem-solving skills demonstrated through participation in college level hackathons and coding challenges
- Excellent communication and teamwork abilities gained through group projects and collaborative assignments

Education

**B.E. in Information Technology – A. C. Patil college of Engineering Navi Mumbai, Kharghar
(Mumbai University)**

November 2022 – May 2026

- Pursuing my degree with extensive knowledge and experience, maintaining a 7-8 CGPA in each semester

HSC in Science – K. J. Somaiya College of Science & Arts, Vidyavihar (Maharashtra State Board)

June 2020 - May 2022

- Successfully scored 72.40% in board exam

Skills

- Languages: Python, Java, SQL, HTML, CSS, JavaScript, MongoDB
- Tools/Frameworks: VS Code, PyCharm, NumPy, Pandas, Matplotlib, React
- Concepts: Data Structures & Algorithms (DSA), DBMS, OOP, Basic ML algorithms
- Soft Skills: Teamwork, Communication, Time Management, Problem Solving

Projects

- Telecom Churn Prediction (python based Machine Learning Project)
- Event Space Booking System (Eventura), Full stack web based project
- Loan Eligibility Prediction (Python Based Project)
- Customer Segmentation Analysis using Power BI
